

AlfaTech / Los Angeles

Senior Electrical Engineer

The **Senior Electrical Engineer** is a department leadership position, responsible for building and nurturing client relationships as well as acquire new client relationships. They will work closely with the other studio leaders to implement and execute our Strategic Plan, while representing AlfaTech's core values and brand. The Principal is expected to represent design, inspire our team, continue our growth and success in our current market sectors and in diversifying our client and project base.

Key Responsibilities

- Serve as the leader for the Electrical Engineering Department
- Develop, review and approve proposals, reports, and contract documents
- Develop and maintain industry relationships and visibility with current and prospective clients, sub-consultants, competitor/teaming partners, and potential recruits
- Ensure design process is followed and influence usage of technological tools
- Take ultimate responsibility for the quality and profitability of projects
- Take personal responsibility for coaching, developing and growing staff
- Demonstrate leadership by participating as the electrical engineering Thought Leader in professional organizations, activities and services that further the firm's vision, value and relationships

Job Requirements:

- Advanced technical knowledge within the electrical discipline
- Proven ability to understand and recognize complex design problems
- Knowledge of electrical and related California Building Codes
- Versatile, self-motivated and articulate
- Must possess a valid driver's license

Education:

- Bachelor's Degree in Electrical Engineering

Certifications & Licenses:

- Professional registration in Electrical Engineering is strongly preferred (PE)

Experience:

- Minimum 10 years' experience in the Electrical Engineering Design discipline, inclusive of three (3) or more years' experience in management of a studio, practice group, or regional office

Computer Skills:

- Experience with AutoCAD & Revit documentation and management, as it applies to Electrical Engineering
- Experience with utilizing EnergyPro
- Baseline experience and understanding of AGI32 or Visual (or similar)
- Experience with SKM (or similar) preferred

Preferred Experience:

- Experience within Corporate Office TI and Core & Shell, Mixed Use/Residential, HealthCare, Retail, Hospitality and Higher Education markets
- Knowledge of Green Building practices and LEED Rating Systems

What AlfaTech brings:

- AlfaTech passionately invests in our employees by providing a collaborative, innovative work environment and the opportunity for personal and professional growth.
- An appreciation for its employees and a culture that reflects that. Plus, the opportunity to work with great clients on cutting-edge projects.
- An exceptionally competitive salary, full benefit package, professional development, transit/parking allowance, 12 half day Fridays annually and a generous year-end bonus based on company profits, individual responsibility, and performance.

We provide the tools and a support system to ensure a thriving career. If this environment and opportunity to work on world-changing projects aligns with your goals, we would love to meet you.
